

**Moral Dilemmas Across the Professional Ethics Scholarly Literature**

Alan Strudler

The Wharton School

2010-2011 Zicklin Center Faculty Funding Research Project

My research project will be based on ideas of moral dilemmas across the professional ethics scholarly literature. I intend to examine the idea of dilemmas in the literature on medical ethics, business ethics, medical ethics, and other areas. My thesis is that the idea of a dilemma is used in very different ways in different literatures, and that this has undermined the quality of discussion of moral problems in the professions. I will try to clear up this problem.
